CLAUDE-WRITTEN COPY MAY CARRY A HIDDEN MARK

Agree what you tell clients before anyone asks.

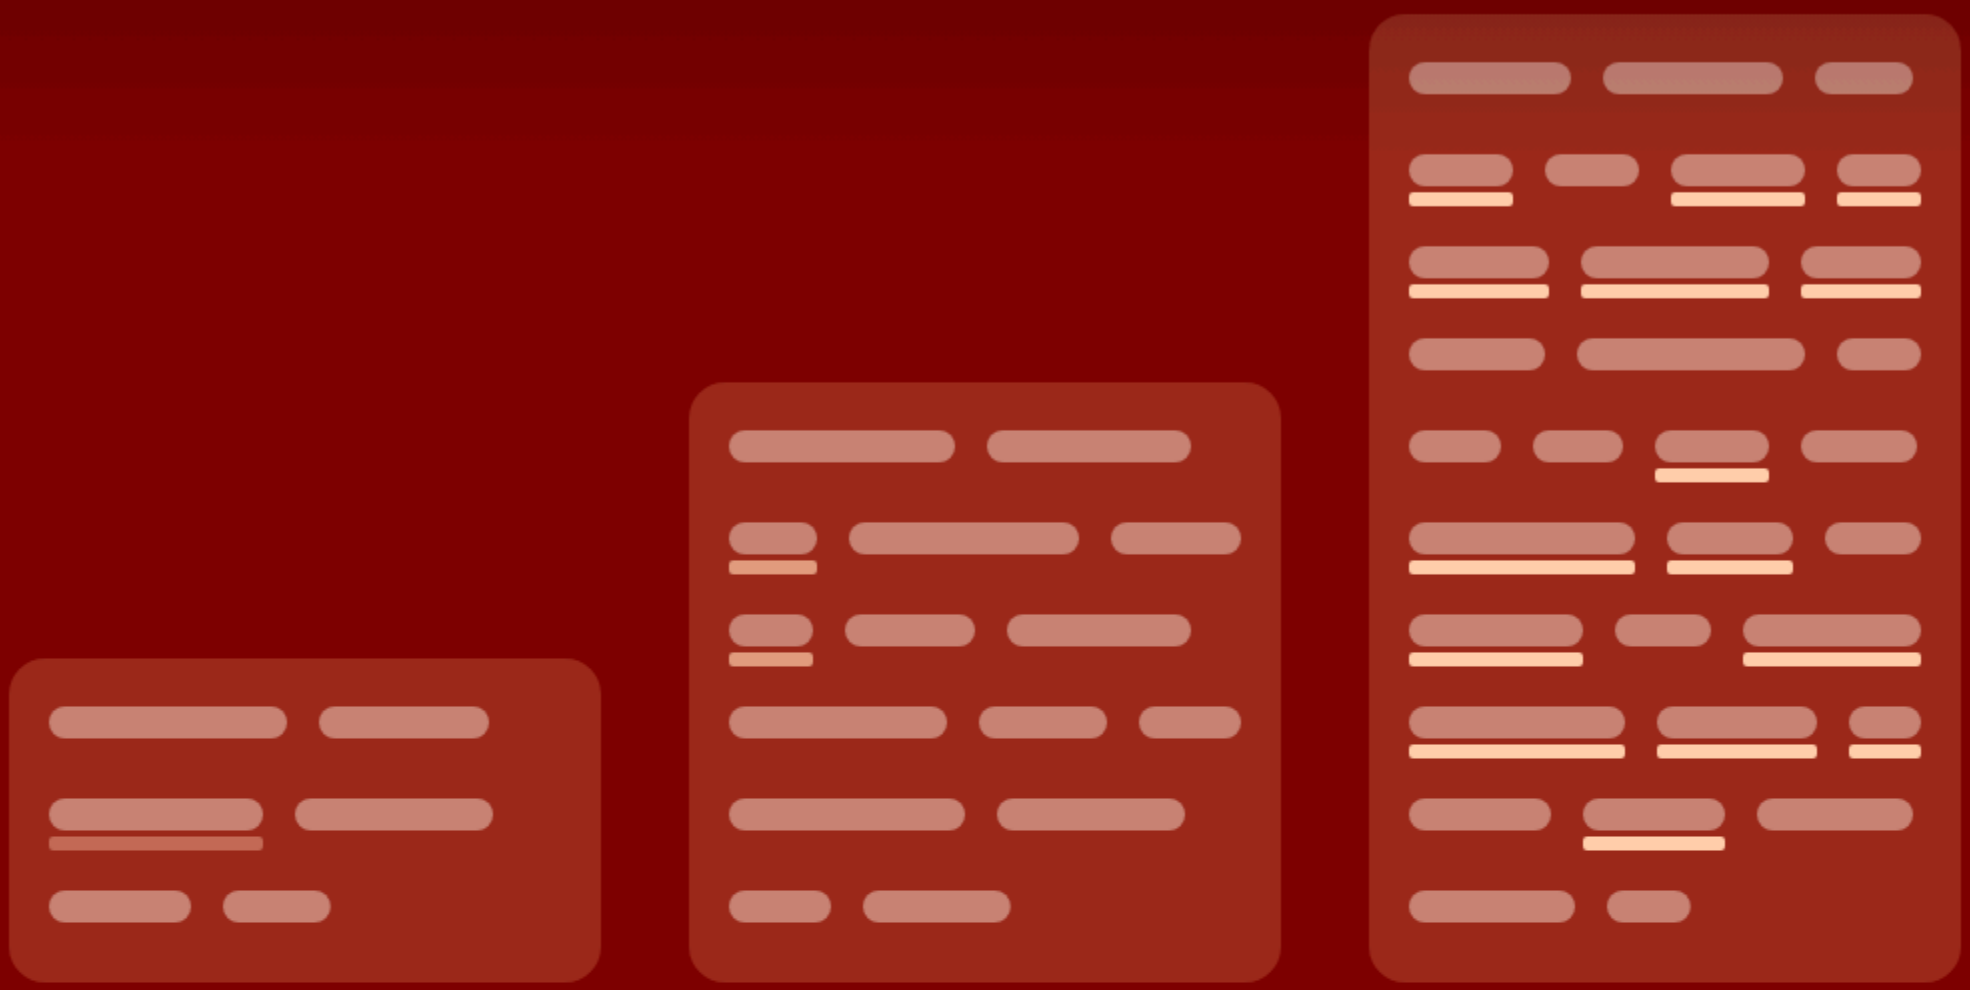

WYN

01

AN INVISIBLE MARK IN WORD CHOICE

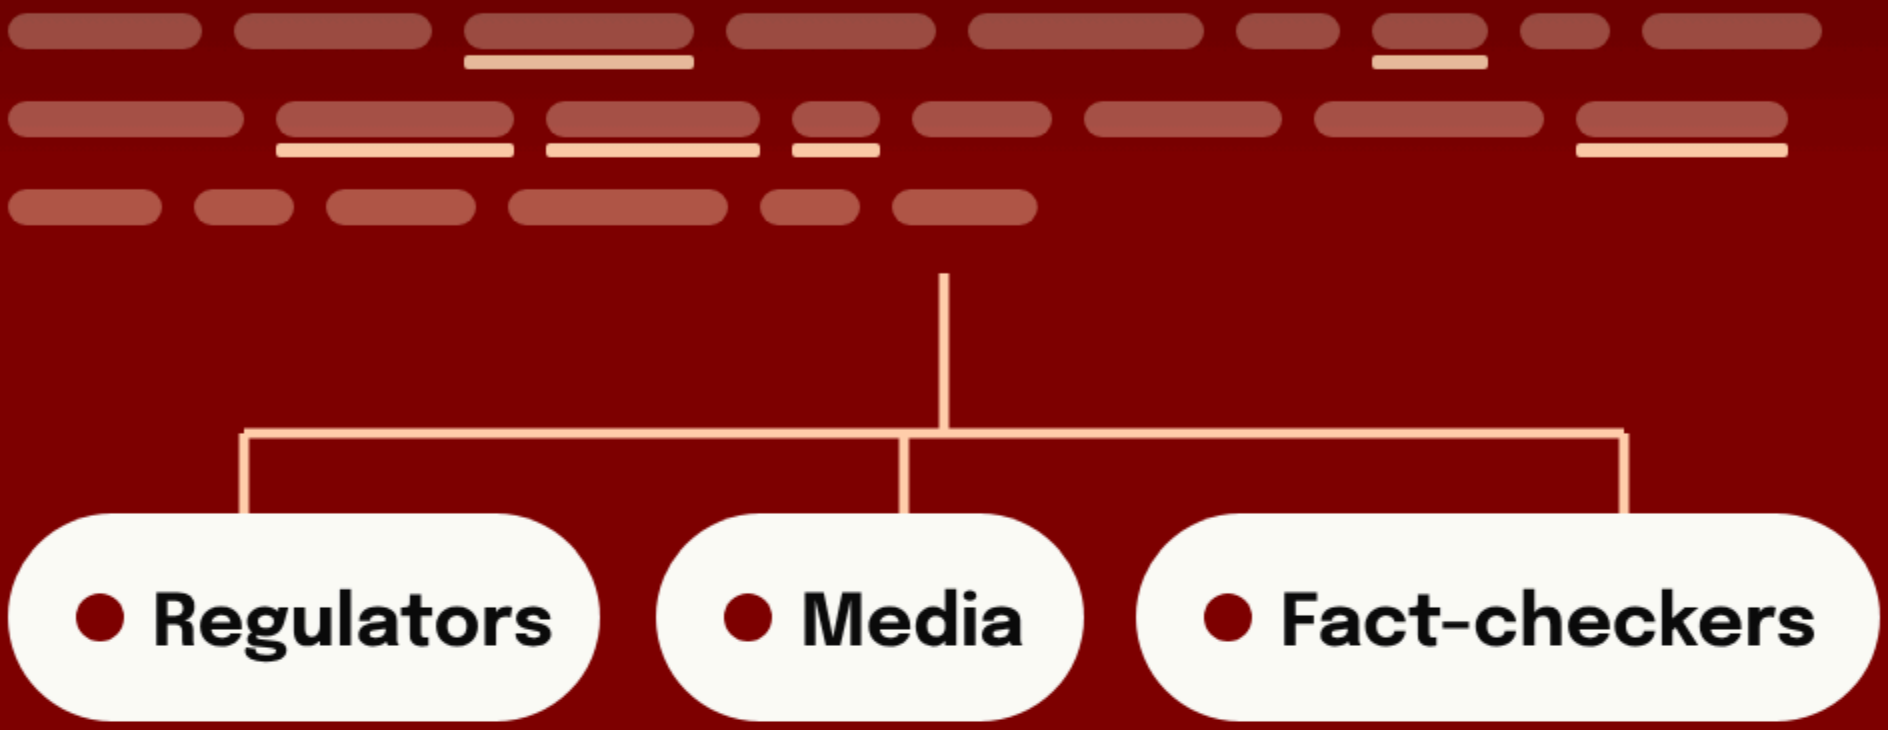

Anthropic says Claude picks words in a pattern readers can't see, to meet EU rules. Applied worldwide. It identifies no user or company.

02

LIKELY, NOT CERTAIN

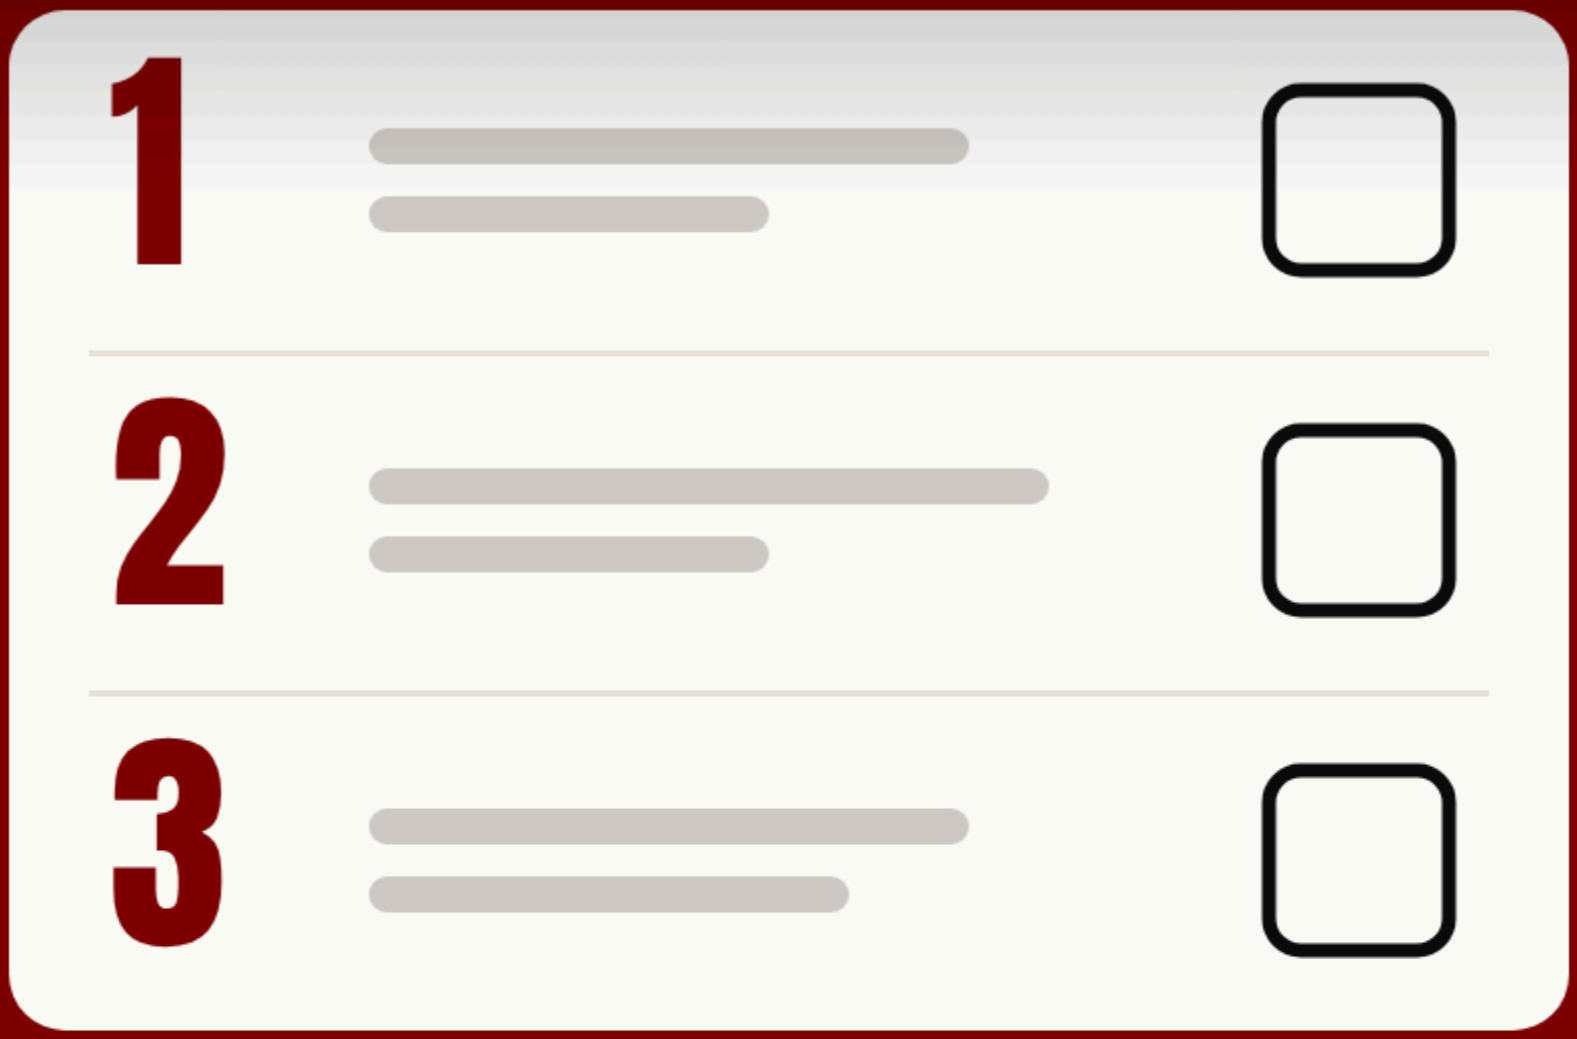

The mark can't tell 'wrote' from 'heavily edited'. It is weaker on short text, facts and light proofreading. A full rewrite removes it.

03

WHO CAN CHECK IT

Anthropic says its checking tool is in private preview for regulators, media and fact-checkers, among others. It plans to expand access.

04

OUR RULE: AGREE THREE THINGS

What counts as 'AI helped' (drafting and heavy edits do); what you tell the client by default; what you say if a journalist asks.
